PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering undergraduate with hands-on experience building full-stack and AI-driven web applications using React, Python, and REST APIs. Completed an internship and an in-plant training program delivering real-time applications end to end. Certified in Java (NPTEL, IIT) and the MERN stack. Seeking an entry-level Software Developer role to apply strong problem-solving skills to production-grade projects.

EDUCATION

Velammal Engineering College

2022 – 2026

Bachelor of Engineering, Computer Science and Engineering | CGPA: 7.53 / 10

RMK Matriculation Higher Secondary School

2021 – 2022

Higher Secondary Certificate (HSC) | 85.17%

RMK Matriculation Higher Secondary School

2019 – 2020

Secondary School Leaving Certificate (SSLC) | 83.60%

TECHNICAL SKILLS

- Programming Languages:** Java, Python, HTML5, CSS3, JavaScript, SQL (MySQL)
- Web Development:** React.js, React Hooks, REST API Integration, Responsive Web Design
- Databases:** MySQL
- Tools & Platforms:** VS Code
- Concepts:** Data Structures & Algorithms, OOPS, API Integration, *NLP(Basics), Convolutional Neural Networks (CNN) (Basics)*

PROJECTS

Mental Health Bot

Tech stack: Python, NLP, Convolutional Neural Networks (CNN) | [GitHub](#)

- Developed an AI-driven mental health chatbot using NLP and Convolutional Neural Networks to support real-time, empathetic text and voice conversations.
- Built sentiment analysis and emotional-state tracking to generate personalized, context-aware responses.
- Designed a crisis-detection module that flags high-risk language patterns and triggers automated alert notifications.

Movie Search & Discovery App

Tech stack: React.js, TMDb API, React Hooks, LocalStorage | [GitHub](#)

- Developed a React-based movie search application integrating the TMDb API to search and display movie details in real time.
- Implemented a Favourites feature using React Hooks and LocalStorage to persist user selections across sessions without a backend database.

INTERNSHIP EXPERIENCE

Web Development Intern — Atlanwa Pvt Ltd

Nov 2024 – Dec 2024

- Built a To-Do task manager using HTML, CSS, JavaScript, and MySQL, covering both front-end interface and back-end data storage.
- Implemented real-time task status updates and tracking, improving usability of the interface for end users.
- Gained hands-on exposure to the full front-end-to-back-end development workflow, from UI design to database integration.

In-Plant Trainee — Codebind Technologies

- Completed an in-plant training program focused on core web development technologies and tools.
- Gained practical exposure to HTML, CSS, and JavaScript fundamentals through guided, project-based training.

CERTIFICATIONS

- Programming in Java — NPTEL, IIT (Jan – Apr 2024)
- MERN Stack Development — Imarticus Learning (Jan 22 – Jan 31, 2024)

KEY STRENGTHS

- Strong problem-solving skills, built through consistent practice in data structures and algorithms.
- Quick, independent learner — shipped 2+ full front-end projects outside coursework; adaptable across front-end and back-end tasks.
